What people are saying about Launch:

No one has ever been on my side before. – *a number of Launch participants*

Launch has made a real difference in my life. I wouldn't be where I am now without them. – *Launch participant*

Launch has helped me be confident and taught me that even when I am struggling there are people out there I can go to, to ask for help and opinions. They are part of my life, and been there for my son's whole life. – *Launch participant*

The staff and volunteers listen to me. They help me look at all my options, and help me make my own decisions. – *Launch participant*

I have been asking for help everywhere, but this is the first place that took the time to listen and figure something out. – *Launch participant*

Coming regularly to Launch keeps me on track to reach my goals. – *multiple Launch participants*
